

# PICTURE-IN-PICTURE

Get a persuasive edge in the courtroom.

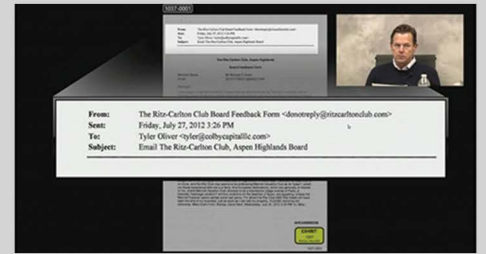

## Picture-in-Picture

Integrate testimony, documents and other demonstratives, such as video, into a picture-in-picture display. This allows you to simultaneously show your deponent's reaction to the displayed image or to mark key areas of a document without interrupting your video testimony.

## Video Capabilities Include:

- iPad/Tablet
- Desktop & Laptop
- Multi-Media HDMI inputs
- Videoconferencing through Zoom or WebEx

## Picture-in-Picture through Videoconferencing

When scheduling a remote deposition with Alaris®, our technicians are always available to assist and show materials on your behalf.
